RE: Gilt Edge Mine Superfund Site; Lawrence County, South Dakota

Dear Mr. Middleton:

This is in response to your request dated April 24, 2013, to Heidi Hoffman of the Department of Justice requesting numerous documents relating to the Gilt Edge Mine Site. Ms. Hoffman has already provided some of the documents you have requested. The U.S. Environmental Protection Agency (EPA) is providing the enclosed site index and two compact disks which contain the following information.

1. The index to the releasable documents in the site file for Gilt Edge Mine Site. Please note that while most of the site file documents have been scanned, there are some that have not. Documents that have not been scanned may indicate a "0" image on the right side of the index.
2. Electronic copies of all scanned releasable documents in the Gilt Edge Mine Site file. If there are documents that have not been scanned, the site index may indicate a "0" images. If you would like a copy of a document that has not been scanned and, therefore, is not included on the compact disks, please provide us with the SDMS number and we will provide copies of such documents to you. Also please note that some of the information request responses included compact disks that contained additional records which may not have been scanned directly into our electronic records system. Please let me know if you would like copies of any of this material and we will provide it unless it is subject to a claim of confidential business information. Rather than risk overlooking a document included with the categories you identified in your letter, we thought it best to simply provide the entire file.

Please call me at 303 312-6904 if you have any questions or concerns.

Sincerely,

A handwritten signature in cursive script, appearing to read "Andrea Madigan", followed by a horizontal line.

Andrea Madigan
CERCLA Supervisory Attorney
